

Welcome to the South Coast

The South Coast region includes southeastern Massachusetts and East Bay, Rhode Island. If its historic cities, pristine beaches and cultural attractions aren't enough to pique your interest, look around and you'll see there is so much more.

When people move to the South Coast, they get to enjoy many amenities, from the landscape to arts to culture and more. As a community within New England, we offer proximity to the ocean, mountains and plenty of sites and activities to explore. In addition, we provide an optimal place to raise a family within a tight-knit community and the ideal work-life balance promoted at Southcoast Health.

Whether you're interested in history, trying out new restaurants or enjoying a relaxing weekend on the beach, there is plenty for you to love about the South Coast. Our area embraces diversity, as we have one of the largest Portuguese communities in the country. From the academic institutions and Federal Hill in Providence to historical mansions and Cliff Walk in Newport to Battleship Cove in Fall River, the Whaling Museum New Bedford and beautiful Buzzards Bay, there is something to explore around every corner.
